POLICY ON MITIGATING FUGITIVE DUST ON COUNTY ROADS

This policy of the Board of County Commissioners is for dust control on county roads. This policy is necessary since approximately 650 miles of developed county roads exist in Crook County and the county does not have the funds to provide dust control on all of the county roads in Crook County. This policy is not binding upon the Board of County Commissioners but is an attempt at a guideline to best use the limited resources of Crook County

1. Roads with an average daily traffic count of 350 vehicles or more will be considered for treatment with County funds.
2. Roads with an average daily traffic count of 350 vehicles or less will not be considered for treatment with County funds.
3. If a party requesting dust control is willing to pay for the dust control the county will apply it to the road as scheduled by the Road and Bridge Superintendent.
4. To start the process the party requesting dust control on a County road shall schedule an initial meeting with the Road and Bridge Superintendent to evaluate the portion of the road in question to discuss all of the relevant issues concerning dust control.
5. The Road and Bridge Superintendent shall determine the cost of the materials and supplies necessary for the application of the dust control.
6. Once the requesting party has deposited the amount of funds determined by the Road and Bridge Superintendent with the County Clerk Trust Account to pay for the Dust Control; then the Road and Bridge Superintendent shall schedule the application to the county road.
7. If the Road and Bridge Superintendent is unable to apply the dust control within one year the funds shall be returned to the requesting party.
8. If the requesting party would like to hire their own applicator and purchase their own dust control directly from a private vendor they must enter into an agreement with Crook County following the guidelines of the **Policy On Private Parties Maintaining County Roads.**

Dated this 3rd day of January ~~2103~~. 2013.
